

Twin and Multi-Conductor Tray Cable - Non UL

Specifications

ARCTIC ULTRAFLEX BLUE™ Tray Cable is exclusively manufactured by Polar Wire Products, Inc. using *Arctic Grade* jacket material that is extremely flexible, lightweight, abrasion resistant and chemical, oil, gas and water resistant.

ARCTIC ULTRAFLEX BLUE™ Tray Cable is rated for up to 600 Volts and is available in 2 or more conductors in sizes 18AWG through 8AWG.

Custom configurations available • Contact us for special orders and lead times

Features

- Finely stranded, flexible to -55°C
- 600 Volt rated
- Tinned copper construction
- Chemical, oil, gas and water resistant
- Available by the foot

Applications

- Trailer wiring
- Solar panel interconnections and trackers
- DC power needs
- Most renewable energy applications
- Robotic applications

Gray Outer Jacket

Part Number	Gauge	Number of Conductors	Conductor Colors
AUF-TC104	10	4	Red, Black
AUF-TC102	10	2	Red, Black
AUF-TC122	12	2	Red, Black
AUF-TC142	14	2	Red, Black
AUF-TC162	16	2	Red, Black
AUF-TC182	18	2	Red, Black

Blue Outer Jacket

Part Number	Gauge Configuration	Number of Conductors	Conductor Colors
ATF-1012-7	6-12 / 1-10	7	Red, Yellow, Black, Green, White, Brown, Blue
