

**Power Poles Assembled In Outer Housings**

**Features**

- Single piece housings of impact resistant polycarbonate offer both high physical strength and superior dielectric properties
- Silver plated solid copper contacts offer low resistance for superior conductivity
- Self cleaning contact design resists arcing by keeping conductive surfaces clean and free of corrosion
- Contacts have flared and heat treated barrels that readily accept fine stranded wire and allow easy, quality crimping
- Integral stainless steel springs maintain constant pressure on the contact to insure a consistent, low resistance connection
- Interchangeable, genderless design
- Allows custom multi-pole configurations

**Single Power Poles**

## Power Pole Outer Housing Features and Specifications

- High impact, corrosion resistant black nylon outer housings
- Easy connection and disconnection of equipment in commercial and industrial applications
- Cable clamps and integral latches prevent accidental disconnection
- Accommodates 2 to 8, 20 AMP maximum circuits
- For 15/30 AMP Power Pole housings
