

Eyelet Style Lugs & Splices

Tin Plated Copper

Heavy duty closed end crimpable eyelet lugs are designed for electrical and industrial applications such as welding equipment, forklifts, generators, power distribution equipment, motors and other products. They are manufactured of pure electrolytic copper, and are available in 8AWG to 250MCM wire and cable with a variety of stud sizes.

Features

- Sized for fine stranded wire
- Deep drawn eyelet style
- Rated to 600V applications
- UL listed, CSA Certified
- Crimps in industry standard tooling
- Seamless* barrel design
- Can be easily soldered or crimped
- Flared barrel entry for easy wire insertion
- Tin plating for corrosion resistance
- Seamless* pads prevent wicking
- AWG wire size identification on barrel
- 100% conductivity; Made of CDA-110 copper
- Economically priced

*Certain terminals with "wide pads" will have a seam, but maintain a constant wall thickness.
