Environmentally Friendly Copper Terminals

ECO-MAX® 100% Copper Battery Terminals are manufactured with best quality C11000 Electrolytic Tough Pitch (ETP) copper for high conductivity performance. Lead free and RoHS compliant.

Features

- 100% copper construction
- Chamfered barrel
- Maximum conductivity, 101% IACS at 68°F
- Tin plated for corrosion resistance
- Lead-free and RoHS compliant
- Tinned steel nut and bolt installed
- Color coded, die coded
- Exceeds SAE Standard J-1811
